- Managing Database Objects
- Creating or Modifying a Table
- Management Basics
- Backup and Restore
- <u>Developer Tools</u>
- pgAgent
- pgAdmin Project Contributions
- Release Notes
- Licence

Deployment ¶

Pre-compiled and configured installation packages for pgAdmin 4 are available for a number of desktop environments; we recommend using an installer whenever possible. If you are interested in learning more about the project, or if a pgAdmin installer is not available for your environment, the pages listed below will provide detailed information about creating a custom deployment.

- The config.py File
- Desktop Deployment
 - Configuration
 - Runtime
- Server Deployment
 - Requirements
 - Configuration
 - Hosting
- Container Deployment
 - PostgreSQL Utilities

- Environment Variables
- Mapped Files and Directories
- Examples
- Reverse Proxying
